

# Western Australian School Canteen Association Inc.

Supporting healthy choices

## WASCA Team Profile

Anna has been the President of the WASCA Executive Committee since 2010, previously Vice President and committee member.

Anna is also the Canteen Supervisor at Churchlands Primary School.

As the picture suggests, Anna is an avid West Coast Eagles supporter!

**Who inspires you and why?**

I can't really single out a specific someone. There are many people I have crossed paths throughout my life and each individual has taught me something about myself and the world around me. I always marvel when I see an individual start something that appears impossible and they succeed due to their determination and belief in their goal. With that in mind I absolutely think of Robin Bromley, WASCA's past Executive Officer.

**What is your favourite cookbook, book or movie**

My favourite movie is Walt Disney's Beauty and the Beast; and many old musical and dancing films.  
My favourite cookbook for a long time was the CWA cookbook, but now I look for any easy recipe for the Thermomix.

**What do you believe is your most important role at WASCA?**

I believe my role has many important parts:

- to support the team in the office
- listen to and act on issues that the Executive Committee need support with or bring to our attention
- be available to other canteen staff as someone to talk to and encourage them in the good work they are doing for our children

**Tell us your top tip for promoting healthy food**

Promoting healthy food in my personal life has always been my goal. We always had plenty of fruit, salads and vegetables daily, small portions of meat and included fish as often as we could afford it.

At the canteen, I do the same by adding vegetables to almost everything; a very limited amount of drinks to choose from (and we do not sell any drinks that come in a can). We hold "Make your own bun day" where many different fillings are on offer and children are encouraged to try something new.

**WASCA recipe recommendation**

[Nachos](#) - this recipe is quick to prepare and has loads of vegies; Churchlands students have been begging for this back on the menu!
